

WAHEED SARGUROH

(416) 662-7935 / (905) 232-5355 - Mississauga, Ontario

uofar.computer@gmail.com / waheed.sarguroh@gmail.com

OBJECTIVE

Highly motivated professional seeking to leverage strong technical skills and customer service excellence to deliver effective technical solutions, support, and troubleshooting for both organizational and individual client needs.

PROFILE SUMMARY

- 9+ years' experience in desktop support, field engineering, and technical systems analysis.
- Expertise in Windows 7, 8.1, 10, 11 and Office 2007, 2010, 2013, 2016 and 365; proficient in VPN, network printers, and remote troubleshooting.
- Adept at supporting 500+ users across corporate, airport, and manufacturing environments.
- Strong interpersonal and communication skills; experienced in handling walk-in and remote support.
- Proven ability to resolve complex IT issues under pressure, meet SLAs, and manage multiple tickets daily.
- Extensive experience with Remedy, ServiceNow, TeamViewer, and other enterprise tools.
- Demonstrated ability to work independently or in teams on major IT integration and migration projects.

EDUCATION

Diploma in Network Specialist – MCSE (Microsoft Certified Systems Engineering) – from triOS College - 2008

- Microsoft Certified in **MCP, MCDST, MCSE, MCITP**
- CompTIA (Computing Technology Industry Association) Certified in **A+, Network+, and Security+**

RELEVANT SKILLS

Technical Support & Troubleshooting

- Delivered Level 2/3 on-site and remote desktop support for hardware, software, and applications.
- Resolved incidents and service requests using ticketing tools (ServiceNow, Remedy, HP IT Works).
- Performed hardware installations, imaging, network setups, and application testing.
- Supported Windows OS, MS Office Suite, Citrix, VPNs, and enterprise software (including SABRE DCS).

Customer Service & End-User Support

- Provided professional support at TechBar and via phone/email/chat for internal users.
- Trained users on new systems and responded to technical issues with clear communication.
- Managed and documented service tickets, hardware deployments, and change requests.
- Delivered comprehensive Deskside Support to over 2,000 clients across approximately 37 locations throughout Canada, utilizing walk-in, remote, and individual on-site assistance for branch offices.

Project Support & Integration

- Supported airport IT integrations (e.g., Sunwing to WestJet) and workstation upgrades (Win7 to Win10).
- Managed IT setups at new locations, coordinated with vendors, and ensured timely delivery.
- Successfully completed large-scale rollouts and domain migrations across multiple sites.
